

IQRA BIBI

OBJECTIVE

My primary objective is to provide a safe and nurturing learning environment that encourages student growth and development. I aim to facilitate engaging and challenging instruction that fosters a love for learning, critical thinking, and problem-solving skills.

SKILLS

- Web development skills (e.g. HTML, CSS, JavaScript(beginner), python(beginner), MySQL(beginner), php(beginner).)
- Programming languages (e.g. C++, JavaScript, python)
- Word: document templates, styles, formatting, tables,

EXPERIENCE

- Completed web development coursework, building a comprehensive project.
- Designed and developed a web-based game using HTML, CSS, and JavaScript.
- Implemented game logic, user interface, and user experience.
- Successfully deployed a small project, showcasing creativity and technical skills.
- Developed a **Learning Management System (LMS)** for a university.
- Built a **web application for internship management**, allowing students to find internships.
- Created a **mini project in Python – Café Management System**, handling orders and billing.
- Completed a **two-month internship as a Web Developer** at **Waiz Software House**.
- Recently I joined **Technik Nest as a Frontend developer** (four months' experience so far).
- I have completed multiple graphic design projects utilizing Canva, developing a strong proficiency in creating visually appealing designs.

EDUCATION

images

- Flutter developer (Beginner)
